5. Notice of Informal Patent Application (PTO-152)
6. Interview Summary (PTO-413),
Paper No./Mail Date _____.
7. Examiner's Amendment/Comment
8. Examiner's Statement of Reasons for Allowance
9. Other _____.

The information disclosure statement filed August 4, 2006 fails to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609 because the submission fails to comply with the requirements of 37 CFR 1.97(d) and (e). In particular, while it is noted that applicants have included a certification under 37 CFR 1.97(e), such certification is an improper certification. Specifically, applicants "certify" that some of the items listed were first cited in a communication from a foreign patent office not more than three months from the filing of the IDS and the remaining items were not known to any individual designated in 37 CFR 1.56(c). This is clearly an improper certification since the date of the European search report is September 17, 2004 while the instant IDS was filed on August 4, 2006. Moreover, the four items on that European search report were listed in copending application serial number 10/842,355 in an IDS filed therein on October 26, 2004. Further, numerous of the remaining listed items were cited by the Office in the respective copending applications on PTO-892s mailed July 15, 2005 and January 9, 2006. Accordingly, it is evident that these items were known more than three months prior to the filing of the instant IDS. The IDS of August 4, 2006 has been placed in the application file, but the information referred to therein has not been considered as to the merits. Applicants are advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609.05(a).
